Department of Ecology and Evolution

E&E Seeks Assistant Professor in Drylands Ecology!

Join our dynamic department! The Department of Ecology & Evolution at Stony Brook University, in collaboration with the Turkana Basin Institute (TBI), is seeking a talented and enthusiastic Assistant Professor in Drylands Ecology.

Start Date: Fall 2025

Areas of Interest: We welcome applications from accomplished arid or drylands ecology researchers working at the organismal, population, community or ecosystem level, including conservation biology. Research that explores drylands ecology in the context of climate change is particularly encouraged.

The Ideal Candidate:

- Demonstrates potential to build upon existing departmental strengths and capitalize on Stony Brook's unique relationship with TBI.
- Holds the potential to establish an internationally recognized, externally funded research program in drylands ecology.
- Committed to excellence in teaching undergraduate and graduate courses, including contributing to field courses offered in the Turkana Basin.
- Possesses a strong commitment to mentoring students.

Application Materials:

Please submit your application through Interfolio: <https://apply.interfolio.com/152962>

Review of applications begins October 15th, 2024 and the position will close on October 29th, 2024.

Share this opportunity! We encourage you to forward this announcement to your networks.
