ARE VICTORY GARDENS MAKING A COMEBACK?

Victory gardens, also called war gardens or food gardens for

defense, were vegetable, fruit, and herb gardens planted at private residences & public parks in the United States, United Kingdom, Canada, Australia & Germany during World War I and World War II.

AVOID THE SUPERMARKET -TRY A CSA!

A CSA (Community -supported agriculture) is a subscription to a season's worth of sustainable, locally grown produce that is distributed to members throughout the harvesting season. It is a form of investment that allows small farmers to continue growing on a scale that may not be sustainable without the CSA model. We're fortunate here on LI where farm-fresh produce is abundant. PICK-UP OR DELIVERY AVAILABLE.

"Real strength has to do with helping others."

Mister Rogers

This seems to be an ongoing theme during this pandemic. It's reassuring to see so many people working hard to help and support others during this crisis situation.
