

**AST 447 or PHY 447
Tutorial in Advanced Topics Registration**

Selected readings in advanced topics for upper-division students of unusual ability and substantial accomplishments. Prior to the beginning of the semester, the topic to be studied is selected by the supervising member of the faculty and a reading assignment is planned. Weekly conferences with this faculty member are devoted to discussion of material, resolution of problems encountered and assessment of the student's progress.

May be repeated up to a total of six credits.
