

Fundamentals of the Bioscience Industry

A Center for Biotechnology Program

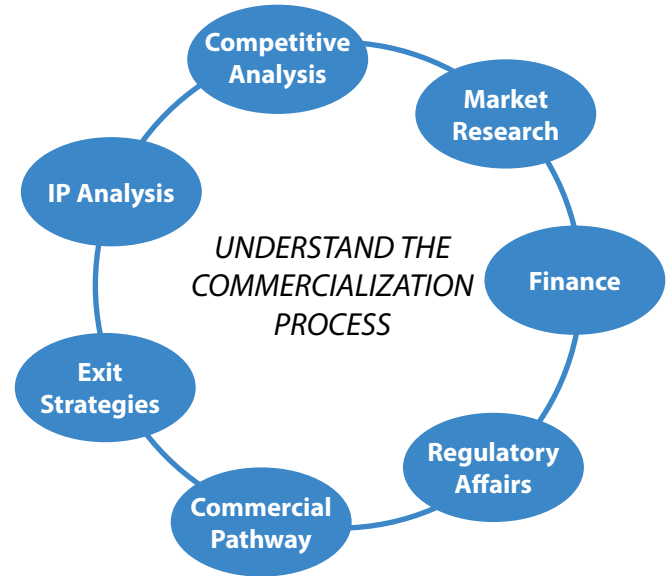

2017 PROGRAM INFO SESSION
WEDNESDAY SEPTEMBER 7
12:30 PM
LIFE SCIENCES BUILDING
ROOM 030

THINKING ABOUT WORKING BEYOND THE BENCH?

The Fundamentals of the Bioscience Industry Program provides skills and knowledge to help transition out of the academic lab into a professional position in the bioscience industry.

Taught by industry professionals through lectures and interactive team projects, participants gain experience in developing commercialization strategies around real world intellectual property and business issues.

**HEAR FROM PROGRAM GRADUATES AT OUR
INFORMATION SESSION - SEPTEMBER 7th
