

TOP 10 THINGS TO KNOW ABOUT THE G/P/NC OPTION:

1. You can't G/P/NC a class that is S/U OR A, B, C/U graded (check the on-line bulletin for more information).
2. Earning a "P" in a course does NOT fulfill DEC, SBC objectives or major requirements. Earning a "P" will fulfill the 39 Upper Division credit requirement and the total credits towards graduation.
3. If you are a TAP recipient, note that if you earn a "P" in a course, it may affect your eligibility to receive TAP in future terms.
4. The G/P/NC option cannot be selected for repeated courses.
5. If you are registered as a full time student, you may withdraw from a class. If you cannot withdraw from a class because it will put you below 12 credits, you might want to consider the G/P/NC option.
6. Talk to your professor about how you are doing in a course before deciding on an option because you might be doing better than you think!
7. It is not necessarily better to G/P/NC or to withdraw from a course, speak to an advisor to figure out which might be best for you!
8. The G/P/NC option is available for only one course per semester, with the exception of PHY 121/123 & PHY 122/124. You must choose the same G/P/NC grade threshold in both courses.
9. Remember to verify the semester deadline for G/P/NC and withdrawal!
10. Neither the "P" nor "NC" is factored into your GPA.

If the G/P/NC option does not appear for a selected course, it may be due to one of the following reasons:

- You are repeating the course. Refer to #4 above.
- You already selected the G/P/NC option for a different course. Refer to #8 above.
- The course is not G/P/NC-able. Refer to #1 above.
